SUBJECT INDEX

A

Abortion
  professionals' views on, 399
  as a social problem, 215
Absorption
  and environmental uncertainty, 287
Acculturation
  and assimilation, 154–55
Achievement
  impact of school desegregation on, 79–83
Action theory
  and language, 383
  recent developments in, 369–84
  role of influence in, 379–83
  role of social media in, 379–83
  role of value commitments in, 379–83
Advertising
  studies of, 105
Age
  and nonmetropolitan population growth, 269
  and quality of life, 134, 136, 138
  and social mobility–fertility link, 318–19
Alienation
  and ethnicity, 161–62
  and rise of new petite bourgeoisie, 187
  effects of bureaucracy on, 54
Amalgamation
  and assimilation, 154, 156
Anthropology
  and the study of organizational culture, 458–62
Anti-urbanism
  and nonmetropolitan population growth, 273–74
Assimilation
  defined, 154
  types of, 154–56
Aversive racist, 342

B

Battered child syndrome, 219, 350
Battered wife syndrome, 362
Black-white relations
  complexity of, 329–32, 337
  and credentialism, 333–34
  future research on, 344
  macro-level models of, 335–37
  methods for studying, 334–35
  micro-level models of, 337–43
  and social class, 333
  subtle nature of, 333–35
Blacks
  educational attainment among, 330–31, 333
  occupational upgrading among, 331–33
  political participation of, 330–31
  unemployment among, 332
Bounded rationality
  in organizations, 290, 464–67
Bureaucracy
  adapting to, 63
  effects of . . . on alienation, 54
  effects of environment on, 56–58
  multidimensionality of, 53–56
  predictors of, 416–17, 421
  in schools, 50
Business
  black, 331–32
  professionals' attitudes toward, 394, 398–99

C

Capitalism
  and new petite bourgeoisie, 183–84
  and white collar crime, 2
Capitalist class
  and new petite bourgeoisie, 183–84
Child abuse
  causal models of, 359–61
  consequences of, 363
  defining, 350–51, 354
  extent and nature of, 355–57
  future research on, 364
  predictors of, 357–59
  preventing and treating, 363
  as a social problem, 219
  studies of, 351
Chinatowns
  poverty in, 246–47
Citizen participation
  economic theories of, 441
  and loss function, 443
  political culture and, 444–47
  predictors of, 443–44
  and public good, 441
  and social welfare functions, 441
  structural context of, 444–47
See also Political participation
City size
  and politics of professionals, 405–06
Civil liberties
  professionals' views on, 396
Class consciousness
  of new petite bourgeoisie, 203–04
Class model
  of black-white relations
    exploitation thesis, 336
    split labor markets thesis, 336–37
Climate
  and nonmetropolitan population growth, 273
Coalition theory
  of political leadership, 440–41
Cognitive bias model
  of black-white relations, 343
Collective reciprocity
  as a control mechanism in schools, 64
College quality
  and the politics of professionals, 405–06
Colonization
  and adapting to bureaucracy, 63
  and television, 103
See also Internal colonization
Computerization
  in organizations, 465–66
  and social control of work, 422, 427
Conflict theory
  and interest in family violence, 348
  of school organization, 59, 61
  of social problems, 210
Confluence theory
  versus dilution theory, 37–38
  of sibling number-child outcome link, 37–38
Consumer protection
  professionals' views on, 398
Contact theory
  and school desegregation, 85–86
Contingency theory
  empirical support for, 57
  and predicting bureaucratization
    coordination factors, 416
    environmental factors, 416–17
    technological factors, 416–17, 421
  and proletarianization thesis, 424

and school structure, 56–58
Cooptation, 289
Credentialism
and black-white relations, 333–34
Crime
and the media, 99
Cult of bigness
disillusionment with . . . and rise of new petite bourgeoisie, 187–88
Culture
components of, 461–62
configurationist approach to, 460
ethnoscience and, 461
and interorganizational coalitions, 295–96
and organizational legitimacy, 296–98
political, 444–47
semiotic approach to, 461
thick descriptions of, 461
types of work, 98
Culture of poverty, 155, 248–49

D

Deep structure, 445, 472
Dependency
and urban poverty, 250–53
Deprofessionalization thesis, 426
Developed countries
ethnic politics in, 170
and the social mobility–fertility link, 319–20
Developing countries
ethnic politics in, 169–70
and social mobility–fertility link, 319–20
Diagonal mobility model
and mobility effects on fertility, 323
Diamond additive model
and mobility effects on fertility, 321–23
Differential association
and white collar crime, 3, 5
Diglossia
versus bilingualism, 122
and social conflict, 122
in Third World contexts, 122
Dilution theory
versus confluence theory, 37–38
of sibling number–child outcome link, 36–37
Discrimination
and assimilation, 154
and ethnicity, 165
Divorce
professionals' views on, 399
Dominative racist, 342
Drunk driving
as a social problem, 214
Durkheimian theory
and organizational culture, 462–63
versus Parsonian theory, 373, 375, 378–79
of school organization, 53, 61–62, 65–66

E

Ecological theory
of family violence, 360
and quality of life, 142–43
Economic development
and quality of life, 137–38
Economic innovation
small business as a source of, 198
Economic recessions
and the reproduction of the new petite bourgeoisie, 201
Economic tension approach to social mobility–fertility link, 316
Economic theory
of citizen participation, 441
and family violence, 361
and quality of life, 142
Educational attainment
of blacks, 330–31, 333
effects of sibling number on empirical findings on the, 39–41
future research on the, 41–42
and nonmetropolitan population growth, 269
and quality of life, 134
and social mobility–fertility link, 320
Elections
studies of, 105
Electronic revolution
and the reproduction of new petite bourgeoisie, 202
Elitist theory
of political leadership, 439
Embezzlement
as a nonsharable financial problem, 6
Employment
and nonmetropolitan population growth, 261–62, 264–66
small business as a source of, 197
and urban poverty, 244
Environment
and bureaucracy, 56–58
as a constraint on organizational decision-making, 286–87
effects of the . . . on loose coupling, 60
and nonmetropolitan population growth, 274
professionals' views on the, 398
Environmental uncertainty
and cooptation, 289–90
coping strategies for, 287
effects of . . . on organizational structure, 288
executive anxiety reduction, theory of, 290
measuring, 291
and organizational decisions, 287
power dependency and, 292
transaction cost approach to, 290–91
Equal opportunity
professionals' views on, 395–96
Ethnicity
assimilation and, 154–56
definition of, 157–58
developmental theory of, 161
discrimination and, 163–66
dysfunctions of, 152–53
families and, 167–68
functions of, 152–53, 161–62
immigrants and, 159–61
internal colonialism and, 165
Marxist theory of, 161
measurement of, 157–58
the military and, 172–73
the police and, 172–73
politics and, 169–73
and quality of life, 138
versus race, 158–59
refugees and, 159–61
religion and, 168–69
renewed interest in, 151–53
resource mobilization and, 166
social stratification and, 163–66
sociobiological approach to, 162
split labor markets and, 165–66
Ethnomethodology
and nonrationality, 464
Exchange theory
of family violence, 360

F

Family
and ethnicity, 167–68

Family firms
employment conditions in, 199–201
Family structure
and urban poverty, 239–41
Family Violence
causal models of, 359–61
defining, 350–52, 354
extent and nature of, 355–57
future research on, 364
myths regarding, 349–50
predictors of, 357–59
preventing and treating, 363
silence surrounding, 348
social construction of, 354–55
sociological perspective of, 349–50
sociologists' discovery of, 347–49
sources of data on, 353–54
women's movement and, 348
woozle effect and, 358
See also violence
Fertility
link between social mobility and, 305–25
See also Social mobility–fertility link
Field theory
and situational analysis, 76
Fiscal Austerity and Urban Innovation Project, 439, 4[illegible]
Forecasting
as a device for handling environmental uncertainty, 287
Forestalling
as a device for handling environmental uncertainty, 287
Functionalist theory
of bureaucracy, 56–58
critiques of, 372–73
and managerial reactions to white collar crime, 17
of mass communications, 95–97
and organizational culture, 460, 471
and social control of work, 424
of social problems, 210–11

G

Garbage can model
of school organization, 59
Gatekeeping
and family violence, 355
and language, 125
and the professions, 421
Gender roles
and language, 118–20
General systems theory
of family violence, 360
Genocide, 164
Ghettoization, 247
Government
and social control of work, 418, 426
Government agencies
and social problems, 216–19

H

Hawthorne studies, 464–65
Homosexuality
as a social problem, 214, 218, 220
Household economy
and the new petite bourgeoisie, 201–02
Husband abuse
causal models of, 359–61
defining, 351–52, 354
extent and nature of, 355–57
future research on, 364
predictors of, 357–59

I

Identification
and assimilation, 154
versus self-esteem, 155
Illness
and quality of life, 138
Immigrants
and ethnicity, 159–61
Immigration
and rise of the new petite bourgeoisie, 187
Income
among blacks, 331
effects of sibling number on, 43–44
and nonmetropolitan population growth, 264, 269
and politics of professionals, 405–06
and quality of life, 134, 136
Income inequality
professionals' views on, 394
Industry
and nonmetropolitan population growth, 264–66, 269
Informal economy
and rise of the new petite bourgeoisie, 187
Instrumental compliance
as an adaptation to bureaucracy, 63
Integration
and assimilation, 154–55
Intelligence
effects of sibling number on
empirical findings on the, 31–32
future research on the, 38–39
parents' IQ and the, 33–35
social class and the, 32–33
wish to have children and the, 35
Interactionist model
of school organization, 52, 62–66
Intergroup relations
impact of school desegregation on, 85–88
Interlocking directorates
and boundary-spanning activities, 288–89
and cooptation, 289–90
legal constraints on, 286
Internal colonization
and ethnicity, 165
See also colonization
Internal labor markets
and social control of work, 419
Interorganizational coalitions
bases of, 293–96
Interorganizational relations
cooptation and, 289–90
environmental uncertainty and, 287–92
methods for studying, 285
multiplicity and, 299–300
organizational legitimation and, 296–98
and political advocacy, 292–96
power and, 283–87
residuals and, 299
and resource dependency theory, 285–86
and resource procurement, 282–92
types of, 286–87
Interpersonal relations
and quality of life, 136, 140

J

Japanese culture
and language, 119
Job deskilling thesis, 428–29
Job status
effects of sibling number on
empirical findings on the, 42–43
future research on the, 44
Job opportunities
small business as a source of, 197–98

Johnson administration
and poverty, 234

K

Kennedy administration
and poverty, 233–34

L

Labelling theory
and social problems theory, 226
and white collar crime, 3
Language
and action theory, 383
of claims, 214
and leadership, 472–73
and organizational culture, 474–75
See also Macrosociolinguistics
Language planning
and social conflict, 124–25
Law
effects of . . . on interorganizational relations, 286, 292–96
Lawyers
and social control of work, 419
Leadership
as a language game, 472–73
in organizations, 464
See also political leadership
Learned helplessness
and victims' responses to family violence, 362
Lifestyle
homosexuality as a, 220
versus media style, 101–02
Loosely coupled systems
and decentralization, 60–61
effects of environments on, 60
organizations as, 468
schools as, 50–53, 58–62
societal values and, 61
Lortie's tangle
and bureaucratization, 55
Lower status workers
social control of
compared to professionals, 431–32
effects of automation on, 427
effects of deskilling on, 428–29
effects of observability on, 427–28
effects of unionization on, 429–30

M

Macrosociolinguistics
and bilingual education, 123–24
and diglossia, 122
and ethnicity, 120–21
and gender roles, 118–20
international flavor of, 115
and Japanese culture, 119
and language planning, 124–25
versus microsociolinguistics, 125–26
and minorities, 123–24
publications on, 116–17
and socialization, 119–20
topical issues in, 117–18
volume of studies on, 114–15
See also Language
Managers
and white collar crime, 17
Marginal group
new petite bourgeoisie as a, 183–84
Marijuana
as a social problem, 216
Marital status
and quality of life, 137

and social problems, 219–21
Men
and social mobility–fertility link, 324
Mental illness
as a social problem, 213, 220
Methodology
and black-white relations, 334–35

Microsociolinguistics
versus macrosociolinguistics, 125–26
Migration
and nonmetropolitan population growth, 264, 268–74
and urban poverty, 244–47
Military
and ethnicity, 172–73
professionals' views on the, 399–400
Minorities
and language, 123–24
professionals' views of, 396–97
Monopolization thesis
and social control of professionals, 423–24
Multiplicity
and interorganizational relations, 299–300

N

Nazism
and language, 120
studies of, 380–81
Neoclassical microeconomic theory
of interorganizational relations, 282
Network theory
of political leadership, 440
New immigrants
and urban poverty, 245–47
New left movement
studies of, 106
and urban policy analysis, 447
New petite bourgeoisie
and capitalists, 183–84
class consciousness of, 203–04
comparative study of, 184
contradictory class location of, 186
defining, 188
economic significance of, 197–98
and family firms, 199–201
history of, 184
and laissez-faire ideology, 194
as a marginal group, 183–84
versus petty bourgeoisie, 185–86
political significance of, 198–99
political systems and the, 203
property rights of, 186
and public policy, 182, 202–03
recent interest in, 182–83

reproduction of the
anachronism thesis, 184–86, 188–89
decline thesis, 188–92
explaining the, 201–04
persistence thesis, 187–88
revival thesis, 187–88, 192–96
role of . . . in late capitalism, 182–204
and social mobility, 184
social significance of, 199–201
and working class, 183–84
New right
and urban policy analysis, 447
News media
and social problems, 221–23
Nonmetropolitan population growth
age and, 266–67
decline in, 274–76
economic versus noneconomic variables and, 264–68, 270–74
education and, 269
employment and, 261–62, 264–66
equilibrium hypothesis and, 268–70
income and, 264
industrial deconcentration and, 261, 264–66
job status and, 269
migration and, 264, 268–74
population characteristics and, 268–70
quality of life and, 270–74
recreation and, 264, 266–67
retirement and, 264, 266–67
settlement structure and, 261–63
sex and, 269
structure of activities and, 263–68
urbanization and, 261–62
wave influence theory of, 262

O

Occupational safety
as a social problem, 217–19
Occupational status
and nonmetropolitan population growth, 269
Occupational upgrading
among blacks, 331–33
Open systems perspective
on interorganizational relations, 282
Organization theory
and white collar crime, 3
Organizational culture
comparative study of, 457–59
contemporary study of, 457–59
empirical studies of, 473–76
as an independent versus dependent variable, 478
influence of anthropology on, 458–62
influence of organizational sociology on, 462–70
influence of sociology on, 460
intellectual foundations of, 459–62
methodological approaches to, 478–79
and planned change, 476–77
and social control, 471
theoretical studies of, 471–73
types of, 471
Organizational decision-making
environmental constraints on, 286–87
uncertainty surrounding, 287–92
Organizational legitimation
measuring, 297–98
strategies, 296–97
Organizational sagas, 474
Organizations
bounded rationality in, 464–65
Japanese versus Western, 458, 468
as loosely coupled systems, 468
as organized anarchies, 467–68
political activism of, 292–96
rational versus nonrational theories of, 458–59, 462, 469–70
study of . . . and computerization, 466
Weberian theory of, 466–67
and white collar crime, 8
Organized anarchies
organizations as, 467–68

P

Parsonian theory
Alexander's work on, 370, 372, 373, 378–9
Bershady's work on, 372–75
of bureaucracy, 54
conservatism of, 372, 374
functional subsystems in, 374–75, 378, 381
Habermas's work on, 372, 375–76
Kantian dualism in, 376–77
Luhmann's work on, 380
Munch's work on, 370, 372, 373, 376–78
of organizational rationality, 465
versus other social theories, 373, 375, 378–79
overgenerality of, 374–75
pattern variables in, 370
recent developments in, 369–84
social action and order in, 378, 381
strengths of, 371
traditional criticisms of, 372–73
voluntarism in, 377
Participant observation
and organizational culture, 458
Patriarchy theory
of family violence, 360
Personality
and family violence, 358
